I2I Datasets – Download Instructions

The UT System ASEP Dashboard allows users to download datasets from various sources, including I2I, ECOS, and ResultsAnalyzer, and integrate those disparate data into a single platform that visualizes your EPP's data in alignment with ASEP Indicators.

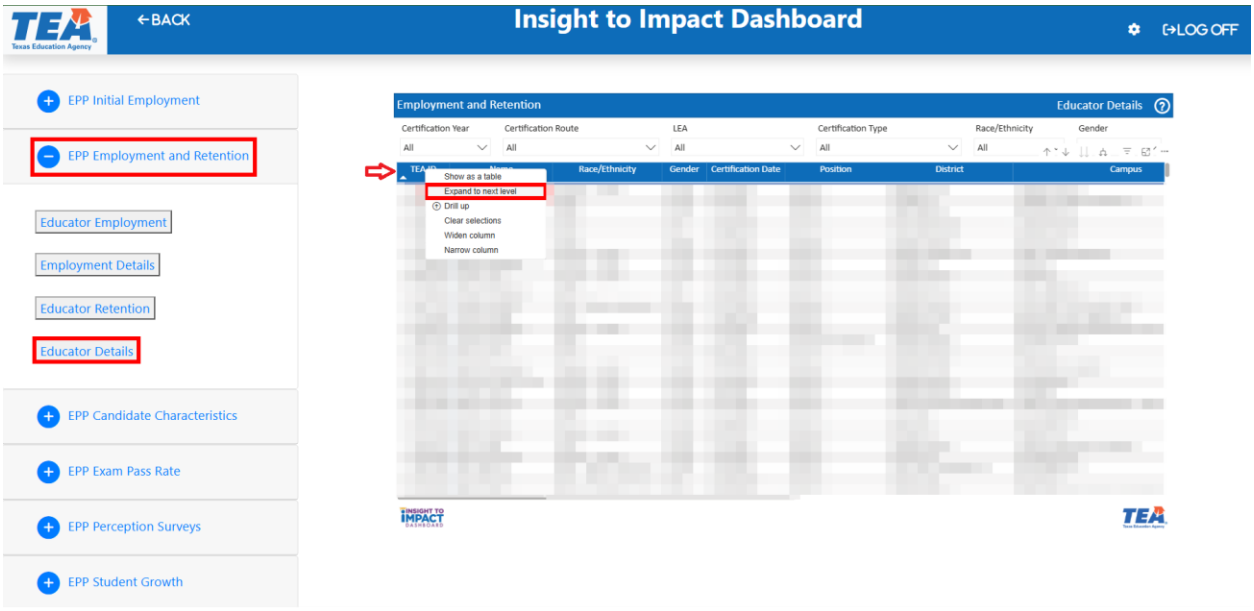

This guidebook provides instructions for accessing, formatting, and downloading the datasets that you can upload to the UT System ASEP Dashboard.

I2I Datasets – Download Instructions 1

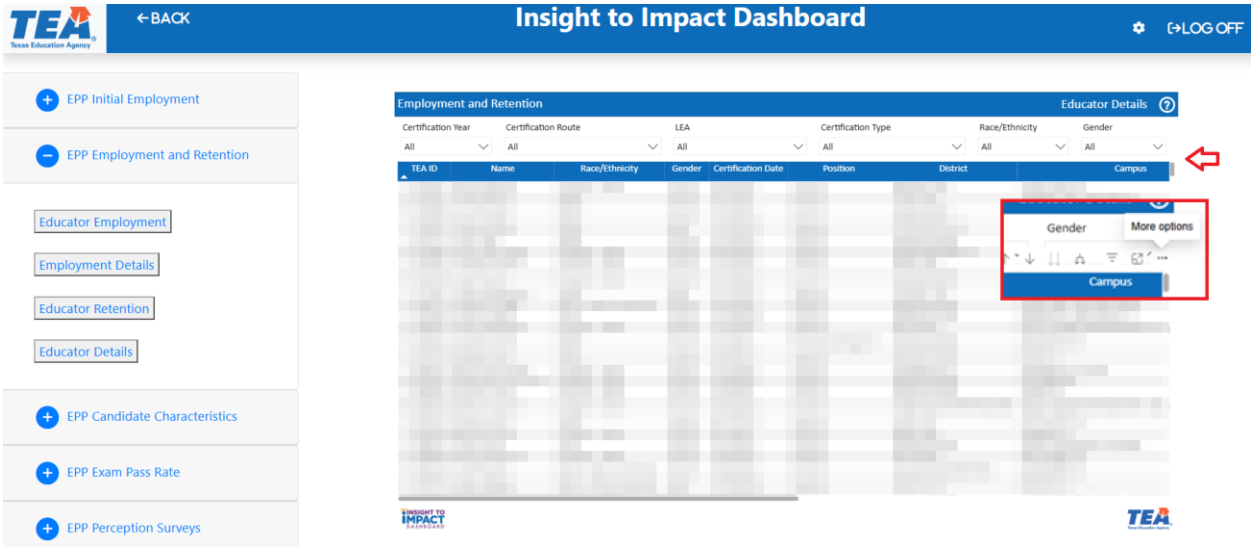

1. Educator Details Dataset 1
2. ASEP Chapter 3: Exam Roster 2
3. ASEP Chapter 4: Principal Perception Dataset 4
4. ASEP Chapter 5: Student Growth Dataset 6
5. ASEP Chapter 6: Observation Dataset 6
6. ASEP Chapter 6: Finishers Dataset 7
7. ASEP Chapter 6: Exit Survey Dataset 8
8. ASEP Chapter 7: New Teacher Survey Dataset 10

1. Educator Details Dataset

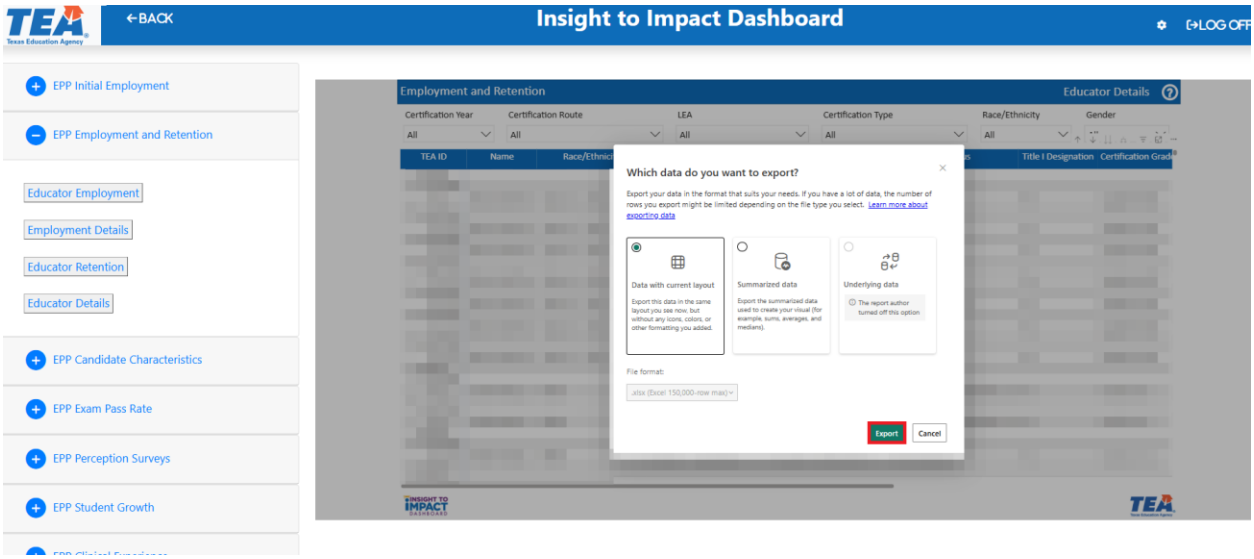

- Go to I2I > EPP Employment and Retention > Educator Details > Click on TEA ID Column Header(Red arrow) and click on Expand to next level. You will need to wait for about 15 seconds for the system will load additional columns (Employment Date, Certification Type, etc.).

- Once all the data is loaded hover arrow around certification Grade Column header and you will see More options button click on the ellipses (more options) on top right side just above the table > Select “Export”.

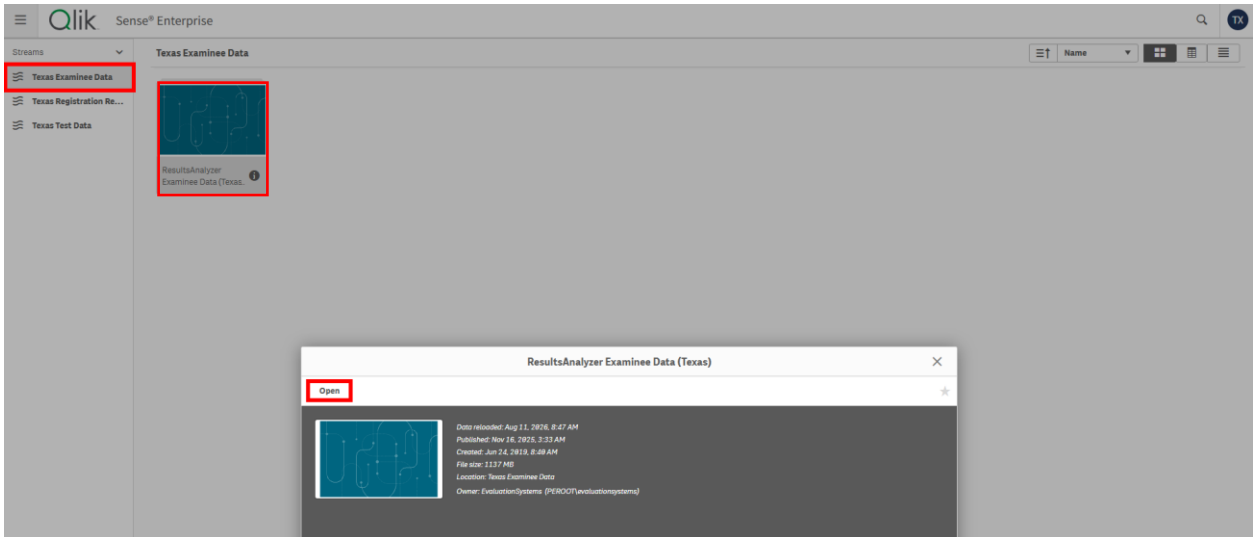

- Click on “Export” to download the dataset.

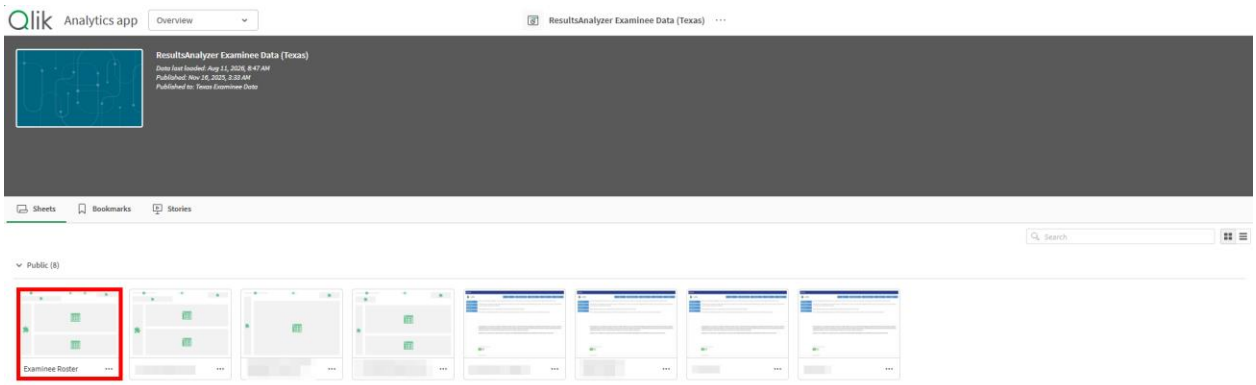

2. ASEP Chapter 3: Exam Roster

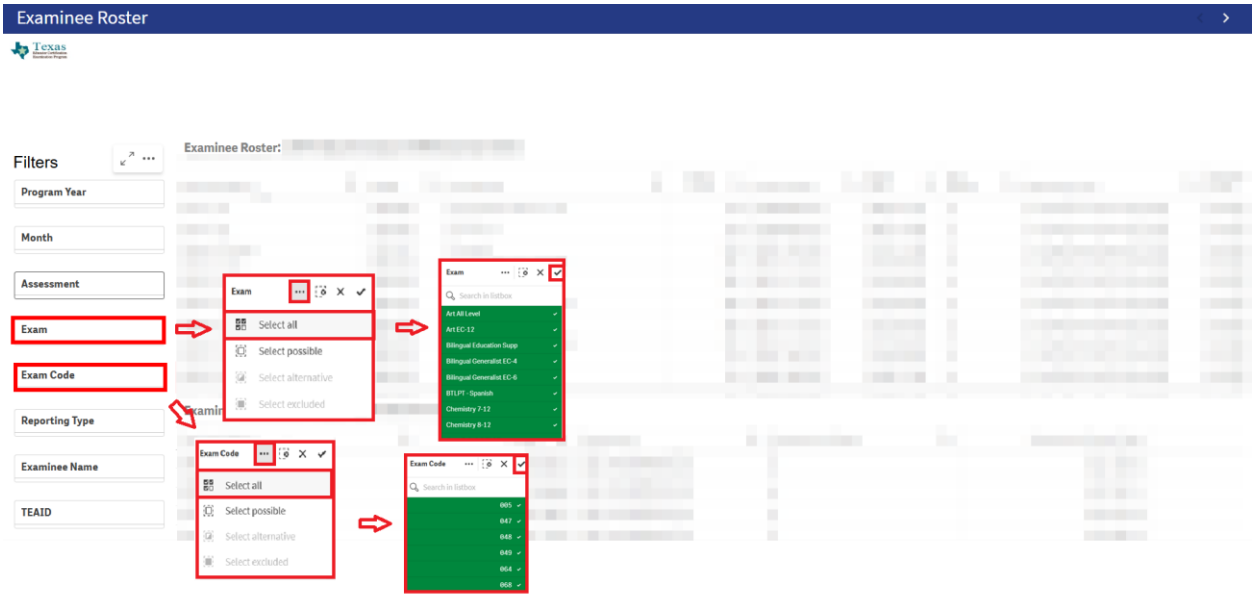

- Go to EdReports > Texas Examinee Data > ResultsAnalyzer Examinee Data > Open.

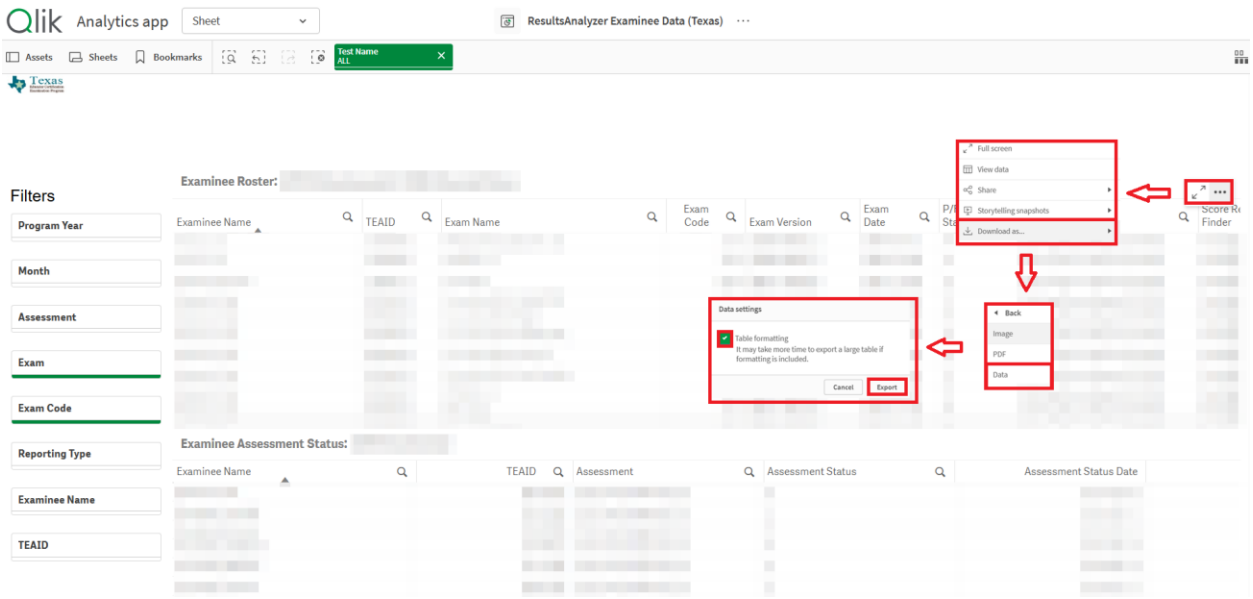

- Select Examinee Roster.

- On left side there is an option titled “Filters in Exam” > Select Exam in that click on three dots just beside the Exam box > Select all from that option to select all the options > click on check sign to conform.
- Now do the same for Exam Code. Click on Exam Code > Three dots > Select All > Check.

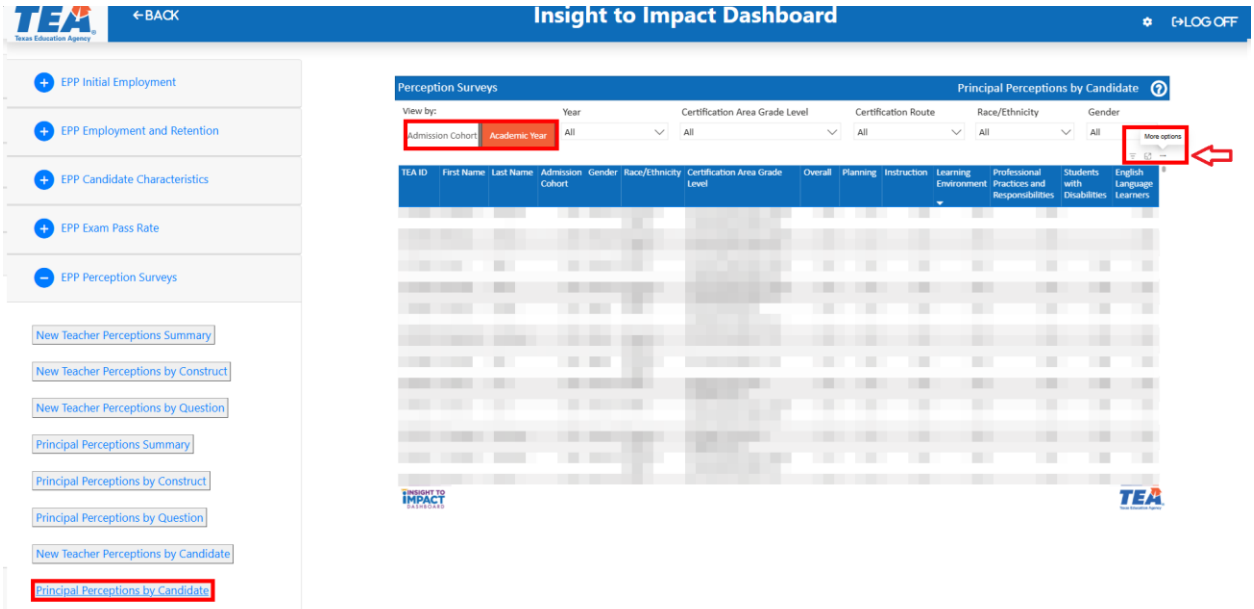

- Now move your cursor towards the upper right side just above the corner of the Examinee Roster table then you will see 3 dots > Download as > Data > Enable Table Formatting > Export and the file will be downloaded.

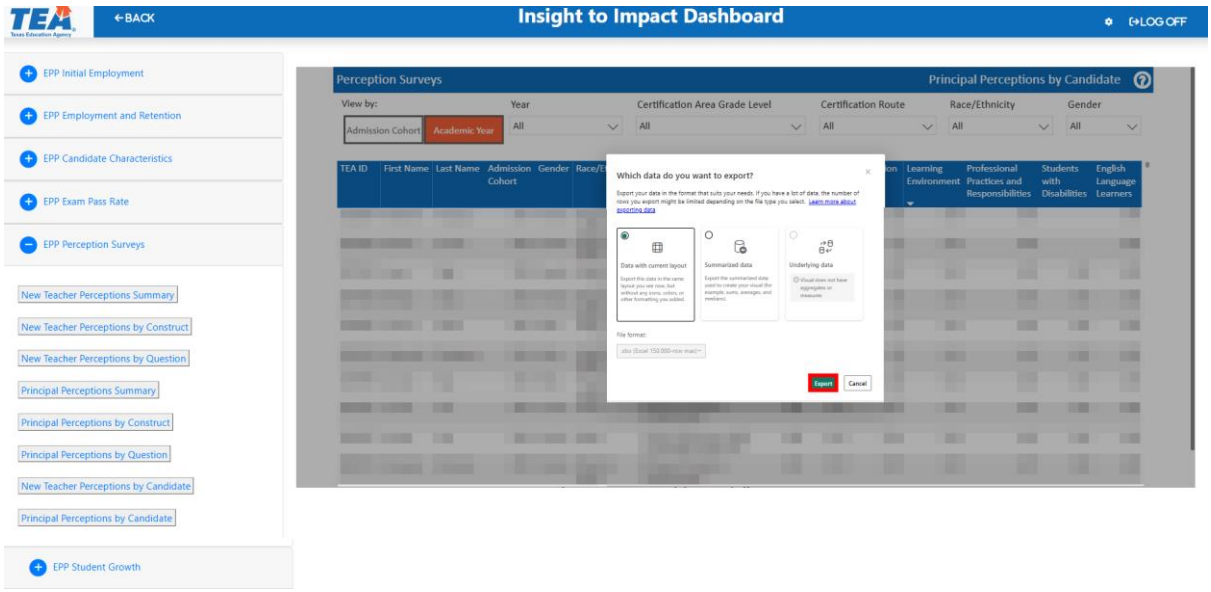

3. ASEP Chapter 4: Principal Perception Dataset

- Go to I2I > EPP Perception Surveys > Principle Perceptions by Candidate > Select View by Academic Year from the filter which is just above the table > hover the mouse just top right side above table and you will see three dots Click on the three dots > Export data.

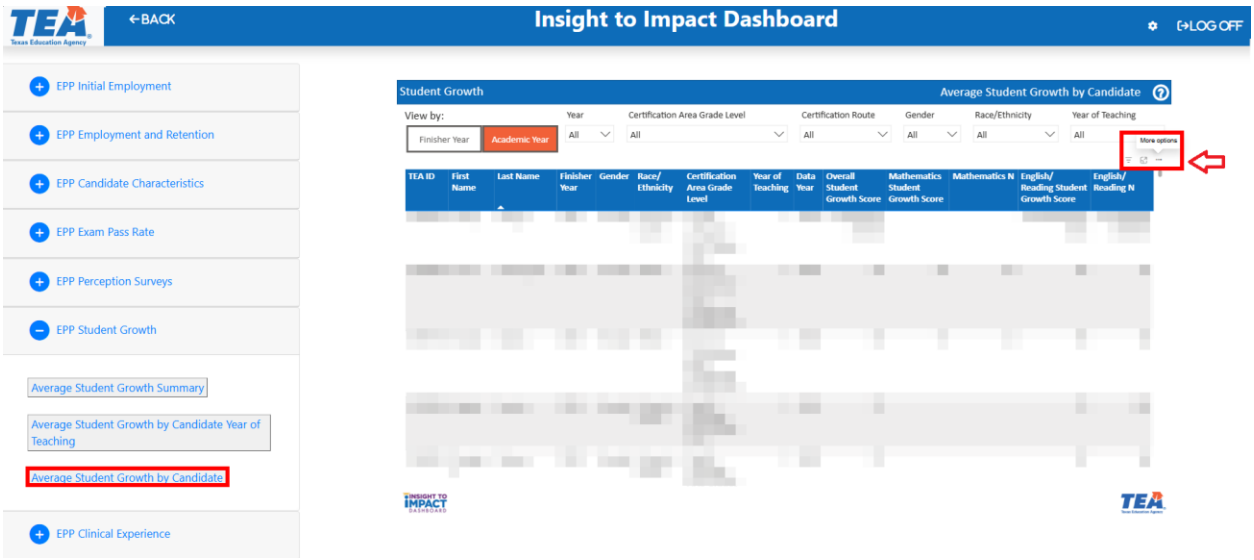

- Click on Export > Once the file is downloaded, rename it to “academic_year_principal_perceptions”.

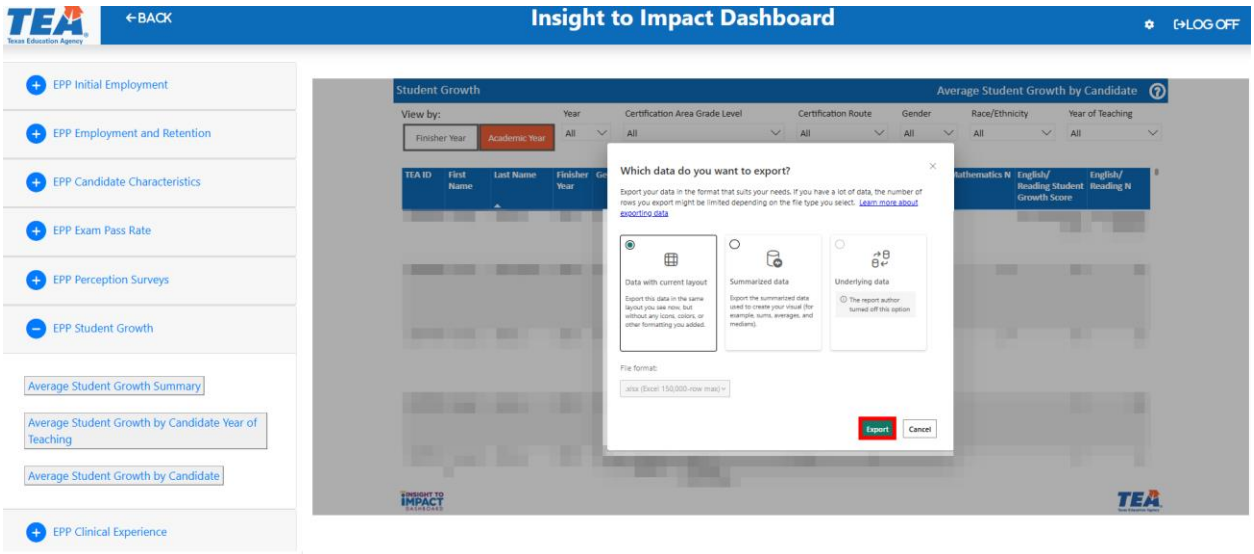

4. ASEP Chapter 5: Student Growth Dataset

- Now go to I2I>EPP Student Growth > Average Student Growth by Candidate > Hover arrow on top right just above the table you will get 3 dots which is more options click on that > Export data.

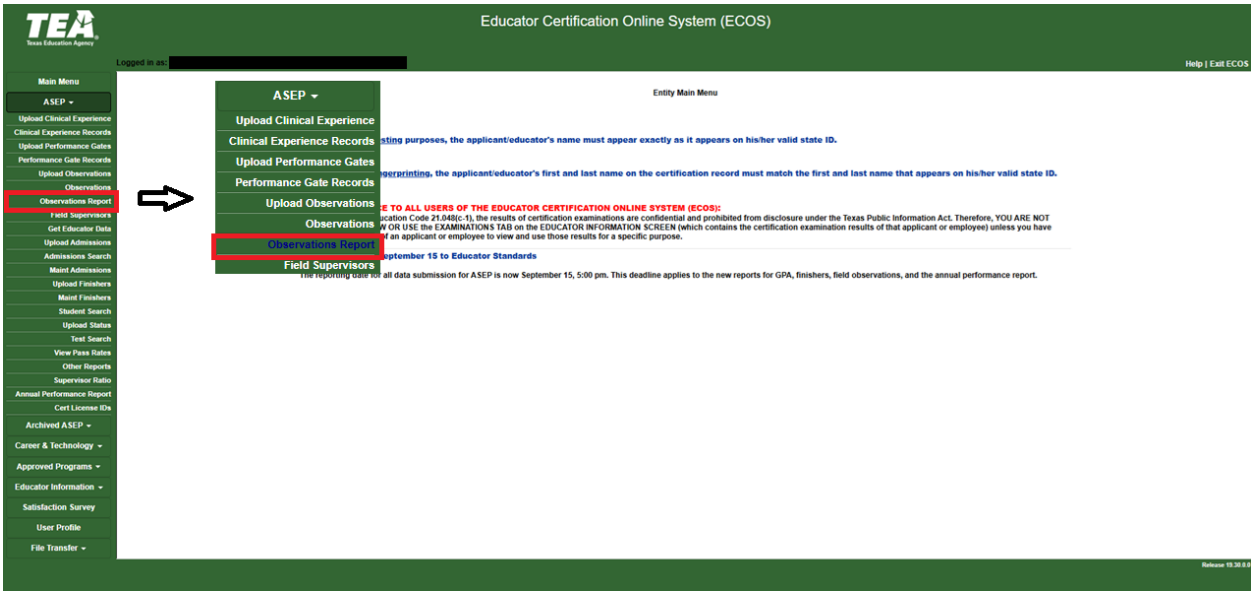

- Then Click on Export data to download the dataset.

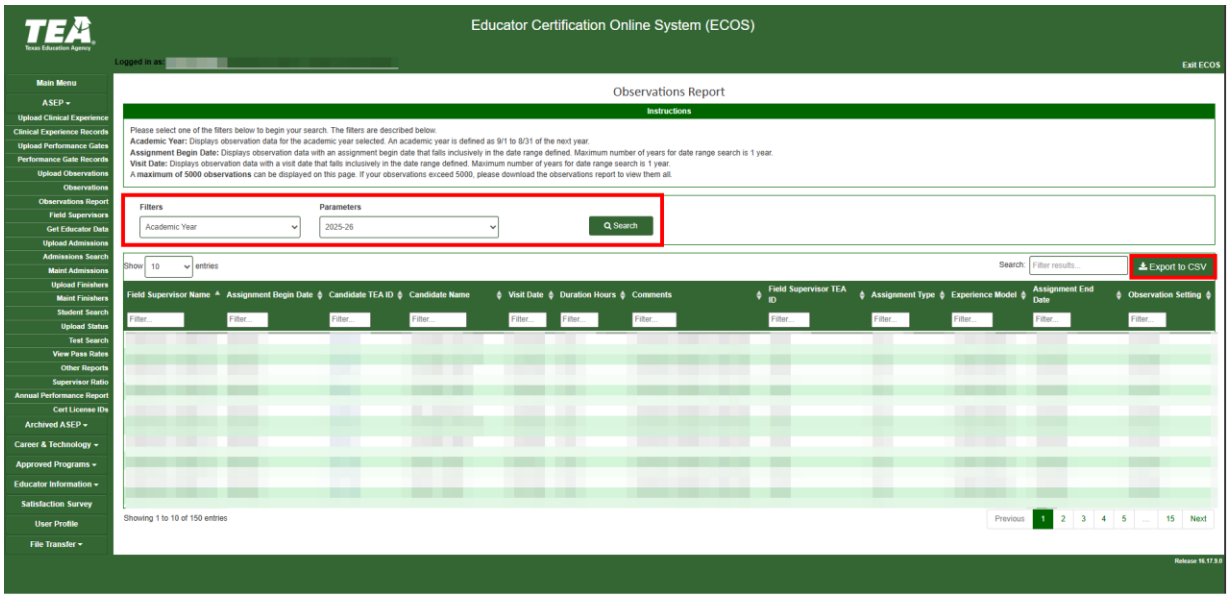

5. ASEP Chapter 6: Observation Dataset

- For this you need to access ECOS with an EPP_ASEP Read only or better authorization. To access go to ECOS> EPP > ASEP > From the list of options choose Observations Report.

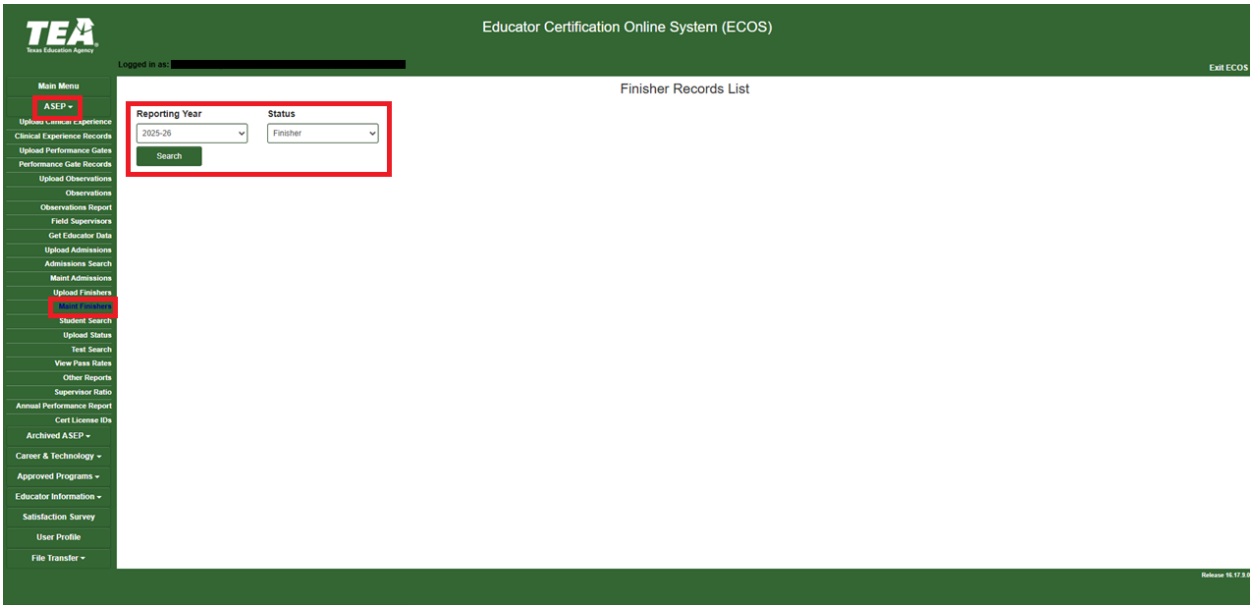

- Choose the Filters to Academic Year parameters to 2025-26 and click on “Search”. A table will appear just above the table on right side there will be an option to “Export to CSV”. Select that option to download the dataset.

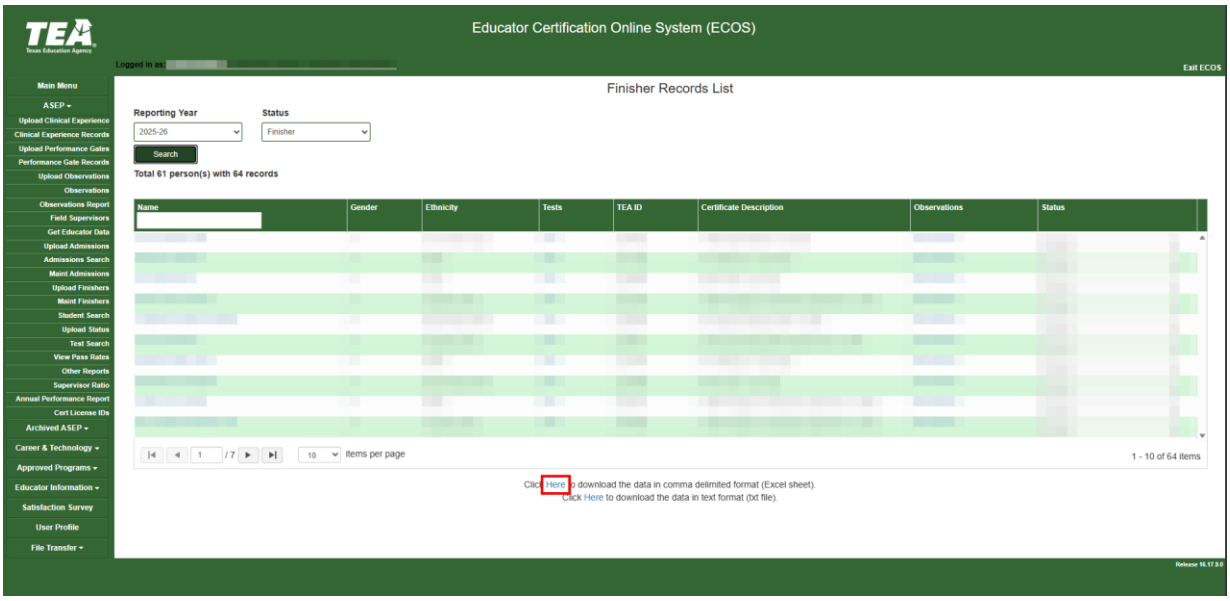

6. ASEP Chapter 6: Finishers Dataset

- Go to ECOS > ASEP > Maint Finishers > Select the Reporting Year and Status as Finisher then click on Search.

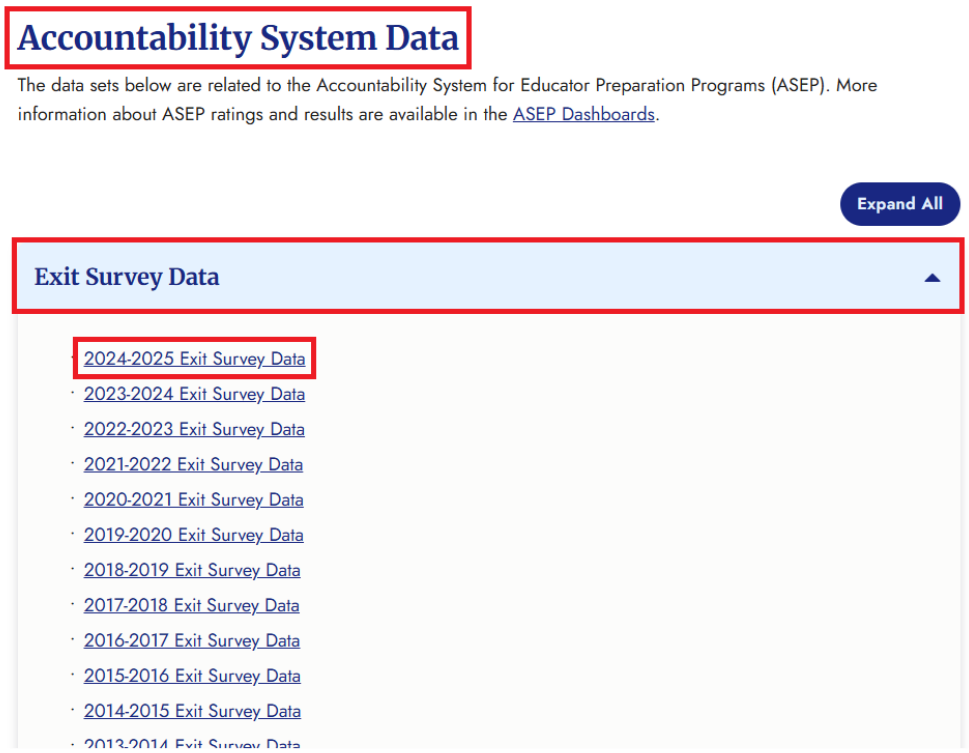

- Just below the table you will see the download options download the Excel Sheet option. Do the process again to download different year dataset.

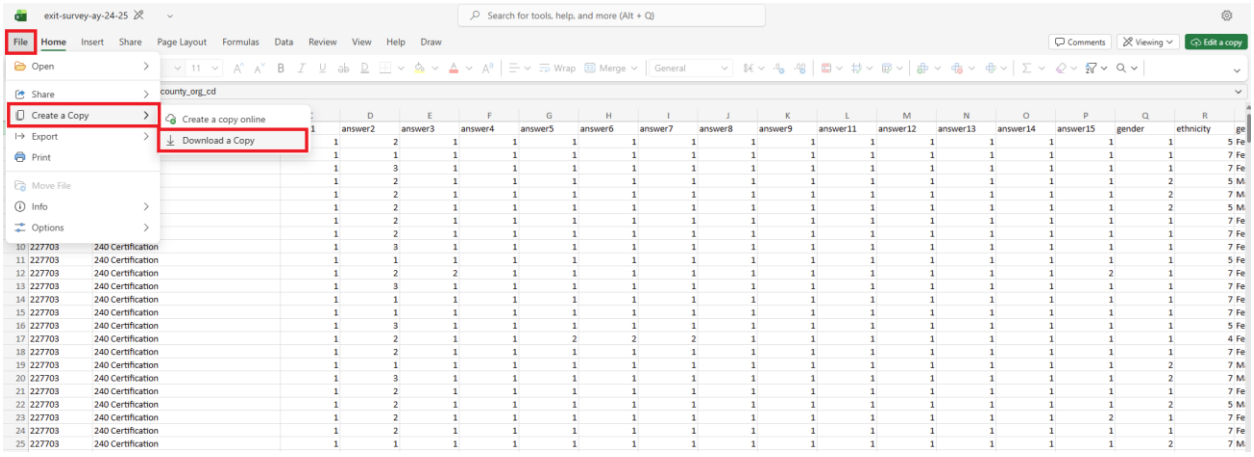

7. ASEP Chapter 6: Exit Survey Dataset

- Click on TEA Program Provider Resources (Program Provider Resources | Texas Education Agency) > Go to Accountability System Data > select Exit Survey Data > Click on the Data of whatever year you want to download.

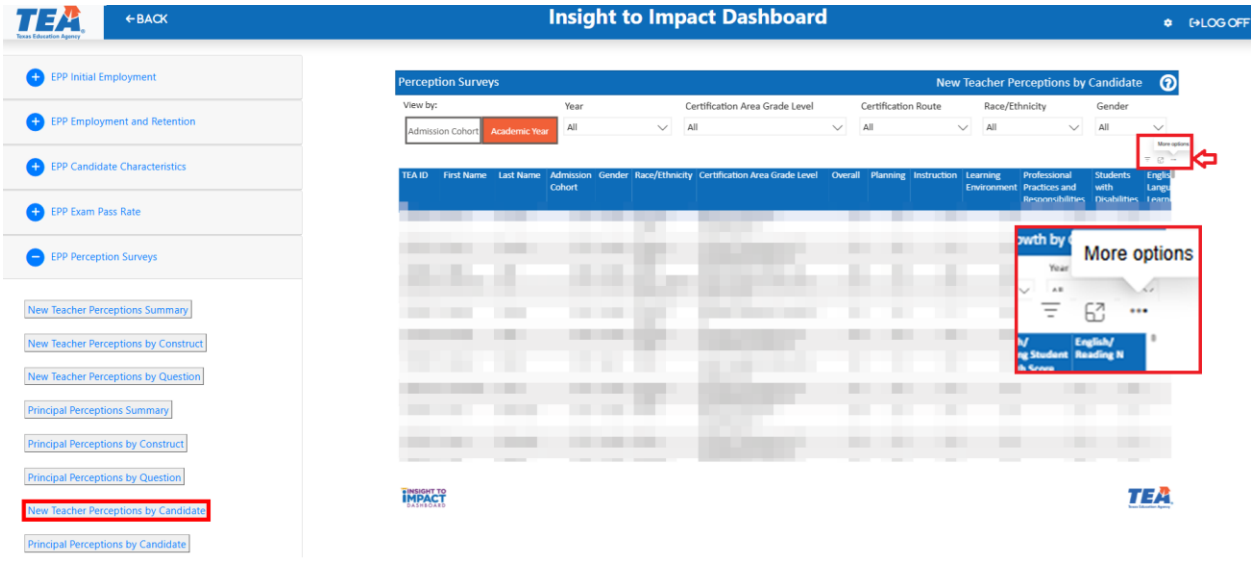

- Click on file > Create a Copy > Download a Copy. This will download the file in Excel format. Do this for all the years of data you want to download.

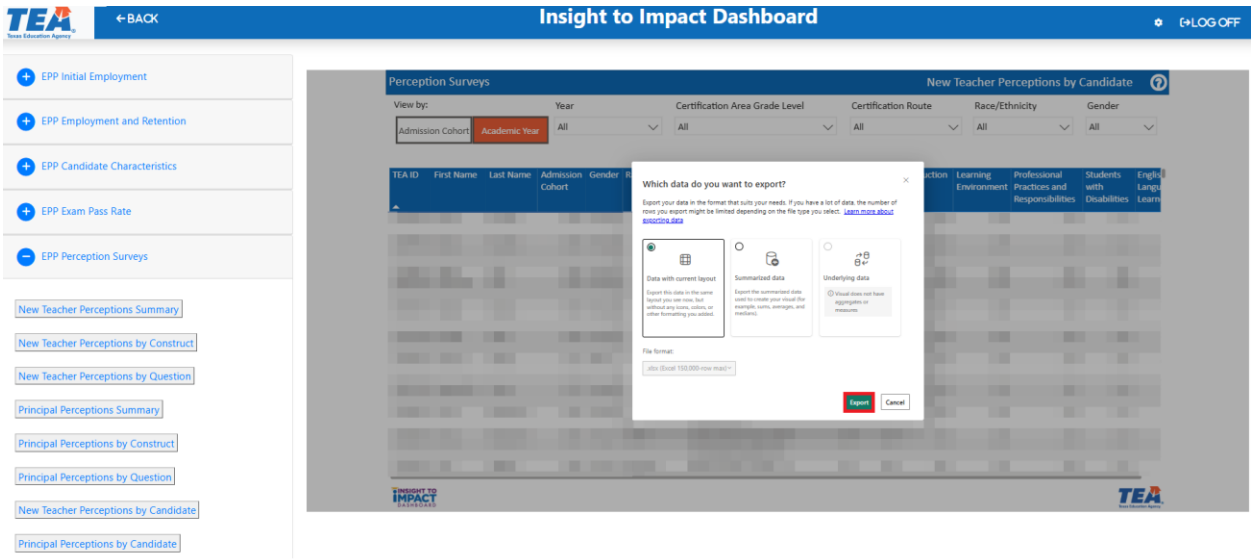

8. ASEP Chapter 7: New Teacher Survey Dataset

- Go to I2I > EPP Perception Surveys > New Teacher Perceptions by Candidate > Hover arrow on top just above the dataset > Right above the table you will then see 3 dots which is “more options” click on that > Export Data.

- click on Export And name the downloaded Excel file to new_teacher_perceptions_by_candidate.xlsx

Dataset requirement for each chapter

1. **Chapter 3:**

- Exam Roster and Educator Details dataset

2. **Chapter 4:**

- Principal Perception and Educator Details dataset

3. **Chapter 5:**

- Educator Details dataset and Student Growth dataset

4. **Chapter 6:**

- Observations dataset, Finishers Dataset and Exit Survey Dataset

5. **Chapter 7:**

- Educator Details dataset and New Teacher Survey Dataset

6. **Chapter 8:**

- All the dataset
